

CYBER SECURITY AND PRIVACY BREACH RESPONSE COVERAGE

What is your planned response immediately following a breach of confidential client or patient information?

Some organizations may have little or no planned procedure in place to address a breach of cyber security and/or breach of confidential information, and may not necessarily understand the implications of a data breach. BMS Canada Risk Services Ltd. (BMS Group), in cooperation with a market-leading Lloyd's Underwriter, has introduced an insurance product that manages a breach from start to finish, allowing professionals to operate with the comfort of knowing that if a breach occurs, a response is in place.

For example: Your server has been compromised by malware, potentially exposing confidential client or patient information. Upon learning of the breach, you email or call the 24hr breach response hotline to report the incident.

Response – A Breach Response team member will contact you to discuss the breach and assist with any needed investigation and response services such as:

- Legal Services
- Computer Forensic Services
- Notification Services
- Call Centre Services
- Breach Resolution and Mitigation Services
- Public Relations and Crisis Management

Other, sometimes overlooked exposures that are addressed by this cyber offering are:

- Costs involved with a regulatory proceeding relating to the violation of a Privacy Law, including penalties (where insurable)
- Coverage for Business Interruption
- Coverage for “Cyber Extortion” incidents
- Third party liability for privacy breaches
- First Party data protection
- Website media content liability

More Information

This brochure is a summary of coverage and is for information purposes only. Full terms and conditions of the policy, including all exclusions and limitations are described in the policy wording, a copy of which can be obtained from BMS Group. For more information on the coverage please contact us.
